

USANZ 2019 PROGRAM

Saturday 13th April 2019

0830-1930	Registration and Information Desk Open						
0830-1700	Speakers' Preparation Room Open						
0900-1200	ANZUNS Forum	Combined USANZ & ANZUNS Workshop	Combined USANZ & ANZUNS Workshop	Combined USANZ & ANZUNS Workshop	Combined USANZ & ANZUNS Workshop	Combined USANZ & APSSM Workshop	USANZ Workshop
							
	Flexible Scope of Practice – Nurse Led Flexible Cystoscopy	A practical guide to current treatments and emerging therapies for advanced prostate cancer	Masterclass in Functional Urology and Female Pelvic Floor Reconstructive Surgery	USANZ/ANZUP Workshop: Clinical Trials 101	Urethral Reconstruction Masterclass	Boston Scientific Foundations Course in Male Continence - Part 1 MERF, QUT	Masterclass in Prostate MRI interpretation
	Chair: Leanne Morton Speakers: Nick Rukin, Sandra Warden, Julie Westaway	Chair: Jeff Goh, Joseph Ischia Speakers: Axel Heidenreich	Chair: Vincent Tse Co-chair: Peter MacTaggart Speakers: Melissa Kaufman, Judith Goh	Chair: Shomik Sengupta Speaker: Martin Stockler	Chair: Justin Chee Chair Speakers: Guido Barbagli, Devang Desai, Lee Zhao, Phil Dundee	Chair: Bill Lynch Speakers: Daniel Moon, Greg Malone, Hee Soo Teng	Chair: Morgan Pokorny Speaker: Scott Eggener, Nick Brown
1300-1600	ANZUNS Forum	Combined USANZ & ANZUNS Workshop	USANZ Workshop	Combined USANZ & ANZUNS Workshop	USANZ Workshop	Combined USANZ & APSSM Workshop	USANZ Workshop
							
	Erectile dysfunction	Bladder Cancer Masterclass	Robotics Masterclass	USANZ/ANZUP Clinical Trial Concept Development Workshop	Percutaneous Intra renal access - Above Below Supine and combined	Boston Scientific Foundations Course in Male Continence - Part 2 MERF, QUT	Hands-on Urological Ultrasound Workshop
	Chair: Kath Schubach Speakers: Chris Love, Gillian Wilson, Kath Schubach	Chair: Roger Watson Speakers: Timothy Donahue, Ashish Kamat	Co-chairs: Geoff Coughlin, Matt Broen Speaker: Alex Mottrie	Chair: Shomik Sengupta Speaker: Martin Stockler, Henry Woo	Chair: David Webb Speakers: Jo Semins, Darren Foreman, Rick Catterwell	Chair: Bill Lynch Speakers: Daniel Moon, Greg Malone, Hee Soo Teng	Chair: Lewis Chan Speakers: Vincent Tse, Stephanie The, Janice Cheng
1615-1730	USANZ AGM						
1730-1830	Opening Ceremony & Harry Harris Oration						
1830-2000	Welcome Reception (Exhibition Hall)						
1930-2200	Presidents' Dinner - Invitation Only (Stokehouse)						

Sunday 14th April 2019

0645-1730	Registration and information desk open
0700-1730	Speakers' preparation room open
0700-0745	Breakfast symposium: Oligometastatic prostate cancer. Speaker - Tim Donahue
0700-0745	Breakfast symposium: Women in urology. Speaker - Melissa Kaufman, Chair - Janelle Munns (Combined USANZ & ANZUNS breakfast)

Sunday 14th April 2019

0745-1000	Opening Plenary Session 1 - Combined USANZ & ANZUNS Session			
0745-0800	David Nicol (UK) - RPLND – is there a role for a minimally invasive approach?			
0800-0815	Andrea Tubaro (IT) - TURP in the elderly and frail - how to assess frailty, a urologist's guide			
0815-0830	Alex Mottrie (BE) - Salvage RALP and Salvage PLND			
0830-0845	Emmanuel Chartier-Kastler (FR) - Open and robotic AUS in female and paraplegic male patients			
0845-0900	Axel Heidenreich (DE) - Optimal management of locally advanced prostate cancer			
0900-0915	Guido Barbagli (IT) - Male urethroplasty using tissue engineered grafts: past - present and future			
0915-0930	Jo Semins (US) - Radiation safety - protecting your patient			
0930-1000	Q&A session			
1000-1030	Morning Tea with Industry (Exhibition Hall)			
1010-1025	Poster viewing session			
1030-1230	Plenary Session 2 - Joint USANZ/AUA Session			
1030-1045	Ashish Kamat (US) - Genomic classification of bladder and variant cancer			
1045-1100	Tim Donahue (US) - Urologic lessons learnt from the battle field			
1100-1115	Melissa Kaufman (US) - Stem cell therapy in underactive bladder			
1115-1130	Gerry Brock (CA), CUA President - So you want to make lots of money?			
1130-1145	Lee Zhao (US) - What general urologists should know about transgender medicine and surgery			
1145-1200	Scott Eggener (US) - Focal therapy in prostate cancer			
1200-1230	Q&A Session			
1230-1330	Lunch with Industry (Exhibition Hall)			
1240-1325	Poster viewing session			
1330-1500	Concurrent 1A	Concurrent 1B	Concurrent 1C	Concurrent 1D
	Oncology	Endourology	Functional, Robotics, BPH	Posters podium - Endourology, BPH, LUTS
1330-1340	Shomik Sengupta - ANZUP Trials Update	1330-1345 Jo Semins - Best bang for your buck - ESWL optimisation	1330-1345 Emmanuel Chartier-Kastler - Robotics in POP	1330-1335 Khrisna Tumali - Life Without Catheter – Does post void residual and voiding efficiency predict risk of future urinary retention?
1340-1355	Ashish Kamat - Micropapillary bladder cancer - MD Anderson approach	1345-1352 Abigail Attwell-Heap - Long term follow up of repeated imaging and fluoroscopy for treatment of urolithiasis in a regional Australian setting	1345-1400 Melissa Kaufman - Management of recurrent UTI	1335-1340 Peter Chin - Symptom and sexual function results after Prostatic Urethral Lift (PUL) for all types of prostate enlargement including obstructive middle lobe
1355-1410	Tim Donahue - Micropapillary bladder cancer - MSKCC approach	1352-1359 Reshma Baadkar - Is ureteroscopy superior to lithotripsy for proximal ureteric stones	1400-1415 Andrea Tubaro - Mesh or no mesh - sexual and functional side effects, and who should do what?	1340-1345 Bashar Matti - The presence of lower urinary tract symptoms does not affect the PSA testing patterns for New Zealand men in the community
1410-1420	Pravin Viswambaram - Improving cystectomy outcomes: ANZUP Co-operative Multi-Centre Cystectomy Audit - An Update	1359-1406 Johann Boaz - Percutaneous nephrolithotomy in autosomal polycystic kidney disease	1415-1430 Alex Mottrie - Robotic simple prostatectomy for massive BPH	1345-1350 Munad Khan - Clinical outcomes in transurethral resection of prostate for the prostate greater than 100cc in volume – a single centre study.
1420-1435	David Nicol - Upper tract UC	1406-1413 Xintao Gao - High androgen could promote the formation of kidney stone through Epithelial-mesenchymal transition (EMT) of Renal tubular epithelium cell	1430-1440 Corrin Hulls - Mechano-physiology of urinary bladder reservoir function; comparison with gastric fundus and gravid uterus. Investigation using Spatiotemporal Mapping in animal models.	1350 – 1355 Sankara Varun Bhoopathy - Analysis of pre-operative mixed growth urine cultures in patients undergoing endoscopic urological procedures
1435-1445	Marlon Perera - 68Ga-PSMA PET in advanced prostate cancer: updated Doctor Marlon Perera diagnostic utility, sensitivity and specificity and distribution of PSMA-avid lesions: Systematic review and metaanalysis	1413-1420 Jonathan Kam - Cost analysis on the use of disposable ureteroscopes (LithoVue- Boston Scientific) to decrease the cost of reusable ureteroscopes repairs	1440-1450 Peter Gilling - The WATER Study Clinical Results – Results at 1 year and Urodynamic findings.	1355-1400 Henley Tran - Low-dose CT urography for investigating stone disease -how low can we go?

Sunday 14th April 2019

1445-1500 Axel Heidenreich - Cytoreductive prostatectomy	1420-1427 Alexander Nesbitt - 1Gas forming urinary tract infection in Tropical North Queensland – risk factors, treatment and microbiology	1450-1500 Q&A session	1400-1405 Jonathan Kam - Zero learning curve Percutaneous Nephrolithotomy Access - Prone endoscopic combined intrarenal surgery and multimedia training aid to teach urology trainees
	1427-1434 Deanne S Soares - Comparison of Treatment Of Medium-Sized Renal Stones in Terms Of Cost Effectiveness		1405–1410 Navid Masoumi - Kidney-ureter-bladder x-ray, is it still necessary?
	1434 –1500 Q&A session		1410–1415 Vincent Chan - Ureteroscopic holmium laser-assisted supine retrograde nephrostomy access: results of a novel approach to percutaneous nephrolithotomy
			1415-1420 Jeremy Wild - The utility of pre-procedural hounsfield unit measurement in predicting the likelihood of ESWL success
			1420-1425 James Roy - Emergency ureteroscopy versus stenting - does infected urine matter?
			1425–1430 Jake Tempo - An eight year analysis of reusable flexible ureteroscopy and consideration of cost effectiveness modelled on single-use flexible ureteroscopes over the same period
			1430–1435 Yongbao Wei - Scrotoscopy is an encouraging technique to diagnose testicular torsion: a pilot Chinese experience
			1450–1500 Q&A

1500-1530 Afternoon Tea (Exhibition Hall)

1510–1525 Poster viewing session

1530-1730	Concurrent 2A	Concurrent 2B	Concurrent 2C	Concurrent 2D
	Oncology & Robotics	Reconstructive urology	Functional, BPH, LUTS	Posters podium - Oncology
	1530-1545 David Nicol - RPLND is a post-chemotherapy operation	1530–1545 Lee Zhao - Robotic posterior urethral and bladder neck reconstruction	1530–1545 Andrea Tubaro - How to manage voiding dysfunction in women	1530-1535 Arveen Kalapara - Clinical and multiparametric MRI predictors of tumour outcome on transperineal prostate biopsy
	1545-1600 Axel Heidenreich - RPLND should be considered as a pre-chemotherapy operation	1545–1600 Guido Barbagli - About the use of internal urethrotomy in anterior urethral strictures	1545–1600 Melissa Kaufman - Autologous POP repair and slings	1535–1540 Andrew Silagy - Modelling kidney function recovery after nephrectomy in at-risk patients
	1600–1615 Ashish Kamat - Is robotic cystectomy actually worth it?	1600–1615 Lee Zhao - Upper tract reconstruction—applying principles of urethral reconstruction to the ureter	1600–1615 Emmanuel Chartier-Kastler - Massive BPH and BOO	1540–1545 Sheliyan Raveenthiran - The use of 68Ga-PSMA PET/CT following radical prostatectomy for suspected biochemically recurrent disease

Sunday 14th April 2019

1615-1630 Alex Mottrie - New robotic platforms and innovations	1615-1630 Guido Barbagli - The problems of penile urethroplasty.	1615-1625 Lewis Chan - The efficacy of Onabotulinumtoxin A in patients with Parkinson's disease and neurogenic detrusor overactivity	1545-1550 Henry Woo - Final analysis of phase 3 LATITUDE study in patients (pts) with newly diagnosed high-risk metastatic castration – naïve prostate cancer (NDx-HR mCNPC) treated with abiraterone acetate + prednisone (AA+P) added to androgen deprivation therapy (ADT)
1630-1640 Andrew Silagy - An evaluation of the role of cytoreductive nephrectomy in non-clear cell RCC	1630-1640 Paria Saadat - Role of urinary diversion in management of severe radiation cystitis	1625-1635 Peter Chin - When technologies collide: Defining urolift artefact and risk of missing cancer on Magnetic Resonance Imaging (MRI)	1550-1555 Andrew Silagy - Genomic and volumetric correlates in patients undergoing a cytoreductive nephrectomy
1640-1650 Wenjie Zhong - Robotic-assisted radical prostatectomy – prospective cohort study of 126 cases on peri-operative and pathological outcomes at a tertiary robotic teaching hospital	1640-1650 David Dangerfield - New strategy to restore erectile function after radical prostatectomy: novel minimally invasive end-to-side sural nerve grafting procedure	1635-1645 - Cindy Garcia - The impact on medicare billing practices with the introduction of Rezum Technology.	1555-1600 Kerri Beckman - The effect of positive surgical margins on cancer endpoints after radical prostatectomy: a state-wide study from the SA-PCCOC database
1650-1700 Michael S. Hofman – PSMA-PET results in a nonmetastatic castration-resistant prostate cancer spartan-like population that is negative by conventional imaging	1650-1700 Paria Saadat - Neobladder formation for the treatment of resistant painful bladder syndrome: assessment of quality of life outcomes	1645-1655 Liam Dunn - Postpartum successful trial of void at Bromage 0 comparable to conventional practice	1600-1605 Sean Brien - Post-operative mortality of patients undergoing renal surgery in Australia: a retrospective review of a national database.
1700-1710 Rowan David - Burden of treatment and cost associated with haemorrhagic radiation cystitis in patients with prostate cancer.	1700-1710 Chao-Yuan Chang - Outcomes of ureteral reconstruction on patients with ureteral stricture: a promising intervention for more challenging cases	1655-1705 Thomas Clarkson - Final continence outcomes for post-prostatectomy incontinence following surgical management	1605-1610 Arveen Kalapara - Predictors of adverse pathology on radical prostatectomy: development of a prognostic nomogram incorporating transperineal biopsy and multiparametric MRI
1710-1730 Q&A Session	1710 – 1730 Q&A Session	1705-1715 Danielle Van Diepen - Excision of the mid urethral sling: indications and effect on recurrence of stress urinary incontinence	1610-1615 Nikhil Mayor - Trifecta outcomes of robotic partial nephrectomy in obese and extremely obese patients: analysis of the highest volume centre in the U.K.
		1715-1730 –Q&A Session	1615-1620 Alexandar Blazevski - Update on 12-months biopsy proven oncological and functional outcomes of primary irreversible electroporation for localised prostate cancer
			1620-1625 Tony Gianduzzo - Multi-parametric MRI as a triage test for prostatic fusion biopsy in 201 consecutive biopsy-naïve patients in a provincial single surgeon series.
			1625-1630 Vidyasagar Chinni - Role of concurrent PET PSMA & MP MRI pelvis in the assessment of PSA recurrence post radical Prostatectomy

1630-1635
Dmitry Polikarpov - Molecular imaging of transitional cell carcinoma by Miltuximab®

1635-1640
Sheliyan Raveenthiran - Patterns of disease for biochemically recurrent prostate cancer following radiotherapy

1640-1645
Samantha Koschel - Impact of 18F-DCFPyL PET scanning in patients undergoing post prostatectomy radiotherapy (IMPPOINT) – preliminary results of a prospective multi-site trial

1645-1650
Thomas Clarkson - Integration of Cxbladder Triage test into community referral pathways (Health Pathways) reduces the number of haematuria referrals

1650-1655
Alexandar Blazeovski - Salvage irreversible electroporation for locally recurrent prostate cancer after radiotherapy – oncologic and functional outcomes

1655-1700
Matt Nobbs - Factors influencing postoperative length of stay in laparoscopic nephrectomies

1700-1705
George Acland - New Zealand prostate cancer outcomes registry – practice patterns from the first 1000 patients.

1705-1710
Yen-Cheng Henry Pan - How Accurate is 68Ga PSMA PET/ MRI in localizing primary prostate cancers compared to multiparametric MRI, Ga68 PSMA PET/CT and whole-mount histopathology?

1710-1730
Q&A Session

1730-1830 Meetings

SET urology trainees meeting with BoU

GU Oncology SAG meeting

Paediatric and reconstruction SAG meeting

Male LUTS SAG meeting

1930-2200 Convenors Dinner - Invitation only (Tattersall's Function Centre)

Monday 15th April 2019

0645-1730	Registration and information desk open		
0700-1730	Speakers' preparation room open		
0700-0745	Breakfast symposium: Concomitant Stress Incontinence and POP Surgery. Chair - Kate Grey. Speaker - Emmanuel Chartier-Kastler		
0745-1000	Plenary Session 3 - Combined USANZ & ANZUNS Session		
0745-0800	UAA Secretary General, Allen Chiu (TW) - AI & surgery and what lies beyond?		
0800-0815	Dingwei Ye (CN) - The epidemiology, molecular characteristics and treatment of prostate cancer in Asia		
0815-0830	Guido Barbagli (IT) - Forty years (1978-2018) around and inside the urethra: a lesson learned.		
0830-0845	Scott Eggener (US) - Intermediate Risk CaP in the AS era - the final frontier?		
0845-0900	Tim Donahue (US) - Insertion of mesh at ileal conduit creation to prevent parastomal hernia		
0900-0915	SIU Lecture: Rajeev Kumar - Pseudojournals and predatory practices: avoiding the minefield		
0915- 0930	Jo Semins (US) - Management of large stones in the morbidly obese		
0930-1000	Q&A session		
1000-1030	Morning tea with industry (Exhibition Hall)		
1010-1025	Poster viewing session		
1030-1230	Plenary Session 4		
1030-1042	Prokar Dasgupta (UK) - Reflections on the BJUI editorship and USANZ contributions (including BJUI Global Prize Announcement)		
1042-1057	BJUI Lecture: Peggy Chu (HK) - Drug abuse and bladder dysfunction		
1057-1112	Lee Zhao (US) - Revision prosthetic surgery		
1112-1127	Emmanuel Chartier-Kastler (FR) - Parkinson's disease and BPH		
1127-1142	Axel Heidenreich (DE) - Prostate cancer targeted therapy and post treatment failure		
1142-1157	Ashish Kamat (US) - Immune therapy in bladder cancer - standard of care?		
1157-1207	BAUS Lecture: Duncan Summerton (UK) BAUS President - Centralisation in Urology – the way ahead?		
1207-1222	Sajid Sultan (PK) - MIS for renal calculi in children - choose the best		
1222-1230	Q&A session		
1230-1330	Lunch with industry (Exhibition Hall)		
1240-1325	Poster viewing session		
1330-1530	Plenary Session 5 - Keith Kirkland and Willis Marshall presentations		
	Richard Hoffmann - Challenging the status quo – Expanding the nursing scope of practice to include nurse led consents for cystoscopy procedures following intravesical treatment		
	Ken Chow - Late biochemical recurrence is associated with a slower rate of progression after prostatectomy		
	Dermot O'Kane - Zinc protects the kidney against ischaemia-reperfusion Doctor Dermot O'Kane injury: investigating the mechanisms of protection in wildtype and genetic-knockout murine strains		
	Jonathan Kam - A comparative study of 2 single use (Boston Scientific- LithoVUE and Pusen PU3022A) vs reusable ureteroscopes for difficult renal calculi treatment		
	Jonathan Kam - PSMA Tc-99m SPECT vs Ga-68 PET for the staging of prostate cancer: A pilot case series		
	James Churchill - Comparing pre-operative and intra-operative bacteriuria during ureteroscopy with laser lithotripsy: a prospective cohort study		
	Andrew Shepherd - Does eligibility for active surveillance of prostate cancer affect functional outcomes after radical prostatectomy?		
	Athina Pirpiris - Defining the urodynamic parameters of central cord syndrome		
	Deanne Soares - Cost comparison of treatment for renal calculi between 10 & 20 mm		
	Daniel McConnell - Do MRI/US fusion biopsies over grade prostate cancer?		
	Simeon Ngweso - Discrepancies in registry coding for penile cancer: A state based review		
	Simeon Ngweso - Penile cancer in Western Australia: The significance of demographic location in survival outcomes		
1530-1600	Afternoon tea (Exhibition Hall)		
1010-1025	Poster viewing session		
1600-1730	Concurrent 3A	Concurrent 3B	Concurrent 3C
	Oncology	Paediatrics, Infection, Trauma	Endourology
	Poster podium - Functional, Reconstructive urology		
1600-1615	Tim Donahue - Intraoperative imaging technologies	1600-1615 Sajid Sultan - End to end urethroplasty in children	1600-1615 Jo Semins - Conquering the challenge of kidney stones in the pregnant patient
			1600-1605 Benjamin Namdarian - Long term outcomes for xy cloacal exstrophy raised as female

Monday 15th April 2019

1615- 1630 Scott Eggener - Prostate cancer biomarkers	1615-1630 Sajid Sultan - Wilms Tumor-SIUT experience	1615-1625 Dhanika Samaranyake - Comparing the rates of encrustation in silicon and polyurethane ureteral stents	1605-1610 Vineet Kumar Narang - Intermittent catheterisation confers immunity against urethral stricture. Fact or fallacy? Incidence of urethral stricture on Indian SCI patients being treated with clean intermittent catheterisation
1630-1645 Scott Eggener - Everything a urologist needs to know about testis cancer	1630 -1640 Sankara Varun Bhoopathy - Current trends and patterns of antimicrobial susceptibility in urinary tract infections of patients in the western sydney local health district	1625-1635 Kathleen Lockhart - Urosepsis and fever after laser lithotripsy procedures in a single Australian institution	1610-1615 Ned Kinnear - The effect of appropriate bladder management on the prevalence of urinary tract infections in patients with a new spinal cord injury
1645-1655 Andre Joshi - Precision medicine in the management of men with biochemically recurrent prostate cancer using a novel in vitro approach	1640-1650 Jennifer Rice - Blood stream infections following TRUS prostate biopsy: 20-year analysis of bacteriology and antibiotic sensitivities	1635-1645 Neel Gore - Live donor nephrectomy: A 10 year analysis at a single institution	1615-1620 Stephen McGeorge - Trends in Australian urethral stricture management from 1994 to 2016
1655-1705 Arveen Kalapara - Combined utility of PSA density and multiparametric MRI in predicting progression on active surveillance for prostate cancer	1650-1700 Kwanjin Park - The characteristics of toilet training in children with spinal dysraphism	1645-1655 Thomas Ahn - Sodium-glucose linked transporter 2 inhibitor (SGLT2i) associated post-operative euglycaemic diabetic ketoacidosis (euDKA): an important consideration for all surgeons	1620-1625 Vincent Chong - Mesh versus no mesh: Outcome of stress incontinence surgery at 2 years.
1705-1715 Paul N. Mainwaring - Updated analysis of progression-free survival with first subsequent therapy (PFS2) and safety in the SPARTAN study of apalutamide (APA) in patients (pts) with high-risk nonmetastatic castration-resistant prostate cancer (nmCRPC)	1700-1710 Ghadir Omran - Breaking bad: Why protective cups need to be standardised	1655-1705 Peter Chin - Are varicoceles a canary for May-Thurner Syndrome? A new aetiological theory for varicocele formation.	1625-1630 Michael Monsour - PeriCoach® structured programming and effect of clinical engagement
1715-1725 Frank Gardiner & John W. Yaxley - Design and clinical validation of surface enhanced raman spectroscopy nanodiagnostic technology for urinary prostate cancer risk prediction	1710-1720 Catriona Duncan - Bladder exstrophy: unfinished projects in chronic congenital urology	1705-1715 Hannah Collins - Ten years of testicular torsion and ultrasound use in the Auckland region	1630-1635 Rebecca Mathieson - Stress urinary incontinence in the mesh litigation era: A trend towards alternative treatments in Australia
	1720-1730 Q&A Session	1715- 1730 Q&A Session	1635-1640 Benjamin Storey - Validation of grading system for emphysematous pyelonephritis: A 10 years multi-centre case series
			1640-1645 Catriona Duncan - Female representation in the editorial boards of leading urology journals
			1645-1650 Hong Jie Soh - A seven-season experience of alpine urological trauma at an Australian major trauma centre.
			1650-1655 Abigail Attwell-Heap - Think surgical ergonomics for improved health economics
			1655-1700 Syed Ali Ehsanullah - Acute Scrotum: Referrals from primary care to the operating table in tertiary care. How can we do it better?
			1700-1705 Abigail Attwell-Heap - WhatsApp - A safe communication platform for surgeons

Monday 15th April 2019

1705-1710	Alice Grant - Causes of delay in management of patients suspicious of acute testicular torsion: a 10-year tertiary centre review
1710-1715	Margaret Mansbridge - Is testicular surgery seasonal? A Gold Coast 5-year retrospective review
1715-1730	Q&A Session

1730-1830	Meetings
	Female urology SAG meeting
	Andrology SAG meeting
	Endourology SAG meeting
1930-2330	Gala Dinner (Howard Smith Wharves)

Tuesday 16th April 2019

0700-1700	Registration and information desk open
0700-1700	Speakers' preparation room open
0730-0815	Breakfast symposium: Trainee breakfast - Axel Heidenreich and David Nicol - Testis Cancer
0830-1030	Plenary Session 6
0830-0845	Andrea Tubaro (IT) - Metabolic syndrome in prostate disease - management of LUTS through exercise
0845-0900	David Nicol (UK)- Advanced RCC management - Is surgery a thing of the past?
0900-0915	Suzanne Chambers (AUS) - Position Statement on Distress Screening and Psychosocial Care for Men with Prostate Cancer
0915-0930	David Currow (AUS) - Systematically improving cancer outcomes for people diagnosed with urological cancers
0930-0945	Melissa Kaufman (US) - Sexual function and pregnancy in spina bifida patients
0945-1000	Sajid Sultan (PK) - Bladder reconstruction and voiding outcomes in incontinent male epispadias
1000-1030	Q&A session
1030-1100	Morning Tea with Industry (Exhibition Hall)
1100-1300	Plenary Session 7
	EAU Lecture: James N'Dow - How Evidence Based Medicine is evolving to incorporate big data and broader global consensus
	Rapid fire EAU Guidelines update - Part I
	Alex Mottrie (BE) - Robotics training, competency and credentialing - The EAU robotics training program
	Rapid fire EAU Guidelines update - Part II
	Q&A session
	Introducing ASM 2020 - Speaker to be confirmed
1300	USANZ Meeting Close
	Complimentary bus transfers to the Brisbane Airport will be provided at the conclusion of the ASM
